## 226 Killed In Traffic Christmas

Christmas holiday traffic accidents claimed the lives of 226 persons across the nation, a final tabulation by the National Safety Council and United Press International showed today.

The traffic toll fell nearly midway in the Safety Council's advance estimate that from 200 to 250 Americans would die on the nation's streets and highways. The toll fell well below the record of 253 for a one-day Christmas holiday set in 1946.

Highway casualties, however, were more than twice normal this Christmas. Safety experts blamed the higher death rate on the tremendous influx of automobiles onto highways and "the old problem of driving too fast for conditions."

## Chou Concludes Visit To Algeria

ALGIERS UPI — Communist Chinese Premier Chou Enlai wound up his six-day visit to Algeria Thursday with a final round of political talks aimed at bringing closer ties between Peking and the government of President Ahmed Ben Bella.

Chou, apparently ignoring Arab quarrels which have split Morocco from Algeria and the U.A.R., planned to fly to Rabat on the next stop of his African tour.

The probable results of his visit here will be an increase in Sino-Algerian trade. Chou has visited Algerian industrial and agricultural complexes, including the Berliet truck factory and a petroleum and chemical plant near Oran.

Unconfirmed reports said a deal for Chinese purchase of Algerian wines and Algerian-made trucks was being considered.

## Sen. Goldwater Blasts Johnson

WASHINGTON UPI — Sen. Barry Goldwater loosed a political haymaker at President Johnson Thursday accusing him of playing "politics with Christmas" on the foreign aid bill.

The Arizona Republican, considered by many as the front-running GOP presidential candidate, accused Johnson of "arm-twisting" members of both the House and Senate during the bitter aid fight.

The White House back-handed Goldwater's criticism. Asked for comment, Press Secretary Pierre Salinger said, "I guess the senator is running again." He said he was sure the President, presently spending the holidays at his ranch in Johnson City, Tex., was unaware of Goldwater's statement.

Goldwater made his charges in a telegram to Mark Price, Senate Republican secretary. The senator is at his home in Phoenix, Ariz., recuperating from surgery to remove a calcium deposit on his right heel. He said he hopes to be in Washington Monday to vote against the compromise \$3 billion aid bill when it comes before the Senate.

In his telegram, Goldwater said he deeply resented "the President's attempt to play politics with Christmas by stampeding votes on the highly questionable foreign aid bill during the holidays."

"Most Americans, I am sure, are opposed to the amount he has demanded and even more, I am sure, are opposed to the use of their tax dollars to guarantee the sale of wheat to the Soviet Union," he said.

## Uses Colored Sand

CANTON, Conn. UPI — First Selectman Samuel A. Richardson defended the town's road crews Thursday after receiving complaints that the community's icy roads were not being properly sanded.

## Another Cold Wave In Sight

Temperatures snapped below zero in sections of the North today and a freezing drizzle caused hazardous driving warnings to be posted in parts of Pennsylvania and Ohio.

New snow fell in the Northern Rockies and North Plains during the night, with accumulations up to 3 inches reported.

Old Town, Maine, reported 18 degrees below zero early today. Sub-freezing temperatures extended across most of the North with below zero readings reported in upstate New York, Northern New England and Northern Minnesota.

The weather bureau said freezing drizzle would continue to fall along the Upper Ohio Valley and Lower Lakes region with occasional snow flurries.

Temperatures in the Southwest continued mild. McAllen, Tex., reported a high of 82 degrees Thursday and Corpus Christi, Texas, had 81.

## Indiana Traffic Toll Now 1,309

Three pedestrian deaths Thursday, two of them in a single accident, raised Indiana's 1963 highway toll to at least 1,309 compared with 1,209 on this date last year.

The toll, the third highest on record and the highest since World War II, is exceeded only by the 1,478 deaths recorded in 1941 and 1,367 reported in 1937. Concepcion Crespo, 45, and her son, Luis, 10, East Chicago, were killed Thursday afternoon as they attempted to cross a street at a downtown East Chicago intersection. The driver of the car which struck them, William Abram, 39, Gary, was held for questioning.

Earlier Thursday, Mrs. Florence Petrik, 68, Richmond, was killed near her home when a car struck her as she walked to church.

## Token Sessions

WASHINGTON UPI — The Senate and the House met for a no-business token sessions today in a mood of some ill will, despite the holiday season.

Both chambers planned strictly pro forma sessions—lasting only long enough to convene, satisfy the requirements of the rules, and be gavelled into adjournment until Monday.

Sen. William Proxmire, D-Wis., acting Senate Democratic leader at last Tuesday's brief but rebellious session, said the Senate meeting would be "strictly token. No speeches. We'll be in and out." The same held true for the House, where only a few members planned to show up.

## U.S., Soviet Grain Deals Are Nearer

WASHINGTON UPI — The long-stalled deal to sell surplus American wheat to the Soviet Union appeared today to be teetering on the brink.

The Commerce Department Thursday issued export licenses for the sale of \$40.6 million worth of U.S. wheat to Russia in what may be the first break in the lengthy negotiations.

Jack N. Behrman, assistant secretary of commerce for domestic and international business, said, however, the export licenses were issued to private traders who thought they could arrange sales and wanted assurances the licenses would be available if needed. The licenses are, in effect, "hunting licenses," Behrman said.

The licenses provide for cash sales. Behrman said they would be subject to U.S.-Soviet agreement on terms. He said the exporters would have to comply with government requirements on shipping half the wheat in U.S. flag ships.

Negotiations for the sale of U.S. wheat to Russia have been in the hands of private U. S. grain firms since shortly after the government laid down ground rules for the deals last October.

## Kenneth Morlan Sent To Prison

Kenneth Morlan, 35, city, was in the Putnam Circuit Court Thursday for violation of a suspended sentence.

## Political Good Feeling To End By Next Month

## Review Ordered On Two Programs

JOHNSON CITY, Tex. UPI — President Johnson kept the economy pressure on the executive branch of government today. His latest target was the foreign aid program which he wants operated more efficiently and with fewer federal employees.

While preparing for a two-day visit with West German Chancellor Ludwig Erhard, starting Saturday, the President ordered a speedy review of foreign economic and military assistance programs.

Johnson set up a seven-member committee of policy-level federal officials to undertake a fast, intensive review of foreign aid program. He ordered the committee to report back to him by Jan. 15 with recommendations on how to eliminate waste, red tape, inefficiency and superfluous personnel.

"My action in appointing this committee, far from reflecting any lack of conviction in the necessity for foreign assistance, demonstrates my strong determination that those programs be so administered as to yield the greatest benefit to our country and the free world," Johnson said in a special statement issued from the Texas White House.

The study committee will be headed by Undersecretary of State George W. Ball. Members included Budget Director Kermit Gordon, Peace Corps Director R. Sargent Shriver and David E. Bell head of the Agency for International Development.

ACA gave him a sorry 9 per cent for 1960 support of sound money and opposition to inflation; 7 per cent for support of economy and conservation against waste; 7 per cent for supporting the private competitive market and opposing government interference; 13 per cent for supporting local self government against central government interference; 9 per cent for support of national security. ACA graded Johnson zero on opposition to government ownership and in defense of individual liberty. A perfect score from the ACA standpoint would be 100 per cent.

## Pro-Castro Group Is Ready To Quit

NEW YORK UPI — The pro-Castro Fair Play for Cuba Committee quietly is seeking to go out of business, it was learned today.

In its stormy 27 months of existence, the committee—financed originally by the Castro Cuban delegation to the United Nations—has engaged in street brawls, been investigated by Congress, and more recently, tied in by implication with the slaying of President John F. Kennedy.

## Hospital Notes

Dismissed Thursday: Marietta Boller, Hazel Cunningham, Cloverdale; Carl Darnall, Bainbridge; Stanley Hanson, Spencer; Lou Douglas, Brazil; Lawrence Stultz, Greencastle.

The era of good political feeling now warming the Johnson administration in its toddling weeks probably will end with a bang in the second week of January when the new President addresses to the Congress his first annual message on the State of the Union.

Until then, the voters can continue to amuse themselves with the new word game: "Is he or ain't he?" The game, of course, seeks to identify Johnson as a conservative or as a liberal. It is not easy.

There is in Washington D. C., an organization known as Americans for Constitutional Action ACA. It keeps account of congressional votes on which it scores senators and representatives on their support of the nation's welfare as ACA sees it. ACA is a hard-nosed conservative outfit.

ACA has an overall rating on the basis of a legislator's consistency in voting to promote sound economic growth through constitutional government and opposing collective morality and socialized economy through centralized power. President Johnson's Senate votes in 1960 were rated a poor 10 percent by ACA's yardstick.

ACA gave him a sorry 9 per cent for 1960 support of sound money and opposition to inflation; 7 per cent for support of economy and conservation against waste; 7 per cent for supporting the private competitive market and opposing government interference; 13 per cent for supporting local self government against central government interference; 9 per cent for support of national security. ACA graded Johnson zero on opposition to government ownership and in defense of individual liberty. A perfect score from the ACA standpoint would be 100 per cent.

An opposite number to ACA is Americans for Democratic Action ADA. ADA had been condemning Johnson for years as a Democratic leader until he succeeded to the presidency when ADA began to have kind words for him. In September, 1955, ADA bracketed Johnson together with Sen. John F. Kennedy in voting during the first session of the 84th Congress, only 66.7 per cent in favor of liberal legislation.

WASHINGTON UPI—For 30 years Harry Flood Byrd, the senior senator from Virginia, has been wielding the economy ax on Capitol Hill. This year, he feels, it finally paid off.

The 76-year-old conservative Democrat views as most significant the action of Congress this year in whittling down foreign aid spending from the \$4.5 billion originally sought by the late President Kennedy to \$3 billion.

"This is the first time in a long time I have seen Congress really cut spending," Byrd said. "The people back home really have been speaking this time, and they were heard up here, I believe."

## Sunday School Teachers Will Attend Workshop In This City January 6-13

"Sunday Church School Teachers Workshop" has been planned by the Putnam County Council of Churches to be held in Charterhouse of Gobin Memorial Church, Greencastle, 7:00 to 9:00 p. m., Monday, January 6 and Monday, January 13. All Sunday Church School teachers and their assistants and church leaders of the county are invited to attend. It is hoped that each church school in the county will have representatives in each of the six classes offered. Registrations should be sent to Glenn Skelton, chairman, R. R. 2, Reelsville, by December 31st. The faculty, according to Dr. Claude McClure, Executive Secretary of Putnam County Council of Churches, represent the best qualified state leaders five denominations have to offer. A brief biographical sketch of each leader follows:

Rev. Chauncey P. Varner

Rev. Chauncey J. Varner, Assistant Executive Secretary of the Indiana Council of Churches, will be the instructor for those interested in adult work. Following his college and seminary work, he became a minister in the Evangelical and United Brethren Church and held pastorates in Pennsylvania, before coming to his present position with the Indiana Council. The major part of his work with the council is helping to set up Leadership Training Schools in the counties of Indiana and providing excellent assistance in helping to work out programs of Christian Education in youth and adult summer camps. We are exceptionally fortunate in securing his leadership for the workshop.

Rev. Robert H. Hammond

Rev. Robert H. Hammond has served as director of Christian Education for the Indiana Baptist Convention since February, 1953. During this time he has given leadership to the program of Christian Education of the Convention. He will teach the class for those interested in Young Adult work. He has been instrumental in the development of the Tippecanoe Baptist Camp, and now in the projected development of Isaac McCoy Baptist Camp. Mr. Hammond is a native of New York State. He was graduated with honors from Houghton College, Houghton, N. Y., and graduated with the B.D. degree from Northern Baptist Theological Seminary, Chicago, Ill. In February, 1953, he moved to Indianapolis to serve with the Indiana Baptist Convention.

Rev. Lyle Loomis

Rev. Lyle Loomis, Executive Secretary, Board of Education, Northwest Indiana Conference, will be the instructor for those interested in Senior High School and Older Youth. He is a graduate of Bowling Green University, Ohio, and received his B.D. degree from Garrett Biblical Institute. He held pastorates in Ohio, and for six years was Director of Religious Education for Methodist Churches of Metropolitan Detroit, Mich. He has been Executive Secretary of the Conference Board of Education, and the Commission of Camping in the Northwest Conference of the Methodist church since 1957. He has served on the staff or directed over 130 sessions of camps for various denominations.

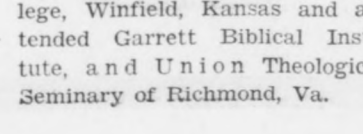

Miss Edna Lorraine Riggs

Miss Edna Lorraine Riggs serves on the staff of the Board of Christian Education of the United Presbyterian Church U.S.A. as Associate Field Director for the Synod of Indiana. She is directly involved in providing guidance to the synod, its presbyteries, and its congregations in the training of Christian education committees, the selecting and preparing of leaders and strengthening the church school, camp, and conference program. She will be in charge of the class of teachers interested in Junior High Youth. Miss Riggs received her B.A. degree from Southwestern College, Winfield, Kansas and attended Garrett Biblical Institute, and Union Theological Seminary of Richmond, Va.

Romney To Host  
Top Republicans

LANSING UPI—Gov. George  
Romney said Thursday he had  
invited four possible GOP candi-  
dates for the 1964 presidential  
nomination to Michigan.

Romney said he had extend-  
ed invitations to Gov. William  
Scranton of Pennsylvania, Sen.  
Barry Goldwater of Arizona,  
Gov. Nelson Rockefeller of New  
York and former Vice President  
Richard Nixon.

Romney is scheduled to intro-  
duce Scranton at a dinner be-  
fore the Economic Club in De-  
troit on Feb. 10, and said he  
"would be willing to introduce  
any of them" to the people of  
Michigan.

Stassen Considers  
President's Race

PHILADELPHIA UPI—Former  
Minnesota Gov. Harold E.  
Stassen said Thursday night he  
is considering running for the Re-  
publican presidential nomination  
at the urging of former President  
Dwight D. Eisenhower.

Stassen, who had served as  
Eisenhower's disarmament ad-  
visor, said he would decide next  
month and that he has conferred  
with Republican leaders of sev-  
eral states. If he throws his hat  
into the ring, he said, he will  
make a "vigorous fight for it,"  
entering some of the primaries.

Stassen said he was one of  
several persons asked by the  
former President to consider enter-  
ing the GOP presidential race so  
that the party can have the wid-  
est possible selection.

tract. One way was to give West  
two ruffs; the other was to get  
ruff in the East hand.

The first way was simpler.  
East returned a spade for West  
to ruff. Back came a club to the  
ace, and East led another spade  
for West to ruff. Four tricks  
were safely stashed away, and  
East still had the ace of trumps  
to make sure of defeating the  
contract.

East could have led the ace of  
clubs and another club instead of

Both defenses would fail if

IKE ADDS CONFUSION  
TO GOP MANEUVERING  
LODGE NAME DISTURBS  
OTHER PARTY CAMPS

By HENRY CATHCART  
Central Press Washington Writer

WASHINGTON—The Republican presidential race has been  
further confused if such a thing is possible and the perpe-  
trator is, of all people, Gen. Dwight D. Eisenhower. He did it  
by injecting the name of Henry Cabot Lodge into the list of GOP  
leaders he considers of presidential caliber.

Lodge, now serving as U. S. ambassador and trouble shooter in  
Viet Nam, and his followers rose to the bait with amazing alacrity, even for a politician.  
Eisenhower's mention of Lodge's name was construed originally as an endorsement, but the former president corrected this im-  
pression quickly by declaring his interest was to give the Republican rank and file the widest  
selection of leaders in order to produce the best candidate with the best chance of win-  
ning the election next year.

But the Eisenhower moves in the political  
arena continue to disturb the camps of the  
one-time front-runner, Sen. Barry Goldwater,  
and of Richard M. Nixon, whose name has  
shot back into prominence in recent weeks.

The Goldwater-ites are particularly dis-  
turbed because of the impression being cre-  
ated that Eisenhower's real effort is to try to  
stop their man from running away with GOP convention dele-  
gates in advance of their meeting date next summer. Other  
Eisenhower moves have done nothing to dispel this impression.

Eisenhower's urging that Lodge return to the United States  
and join the fight for the GOP presidential nomination has also  
had its bad effect in the Nixon camp. These people like to create  
the impression that Nixon, as Ike's vice president, is the number  
one man on his preferred political list.

The one announced GOP presidential candidate, New York  
Gov. Nelson A. Rockefeller, is neither hurt nor benefitted by the  
spate of political comment growing out of Eisenhower's activi-  
ties. The prevailing impression in political circles is that what  
ails his candidacy hasn't been changed by the change in the  
White House or in the GOP ranks.

● SYMPATHETIC PUBLIC—There never has been anything  
like the outpouring of public sympathy for the widow and fam-  
ily of the assassinated President John F. Kennedy.

More than a half million letters, telegrams and packages have  
been sent to the family so far, with thousands of expressions  
still uncounted. An unusual facet of the communications has  
been the large number of expressions in the form of poems. Mrs.  
Kennedy describes much of the poetry as "exceptionally well  
written," and all of it apparently is original.

Many of the gifts are addressed to Caroline and John, and  
are of a religious nature. Others are in the nature of birthday  
and Christmas remembrances. Some of the packages contain  
hand-made items and paintings.

Mrs. Kennedy will follow a policy established when she entered  
the White House of presenting all to charitable institutions.

● OFF LIMITS—The United States recently expanded areas of  
the country into which Iron Curtain country diplomats are not  
allowed to travel. It did this mostly to retaliate for Russian re-  
strictions on the travel of U. S. diplomats.

Forseeably, some of the countries placed under  
these restrictions filed their complaints with the  
State Department. But surprisingly, some of the  
Iron Curtain countries which were not included  
in the ban complained because they had not been  
placed on the off-limits lists.

The only reason that can be imagined for such protests is that  
among Communist countries it's nice to be considered important  
enough to have a significant spy system operating in the U. S.

## Beauty Exists In Holy Land

BETHLEHEM, Jordan UPI — Pope Paul will find when he

comes here on his pilgrimage that neither the garishness of commercialism nor the bitterness of war has erased the serene beauty of storied Bethlehem.

The road to Bethlehem from Jerusalem leads past the Garden of Gethsemane, through the stony hills of Judea and after a long, slow ascent reaches the little town of Christ's birth. It is not the same road that Mary and Joseph took on their way to the City of David to register in the census decreed by Caesar Augustus. The original road is now inside Israel, across the line that divides the Holy Land between Arab and Jew.

The present road runs through hills pitted with innumerable caves used by Christian hermits from the Roman times through the Middle Ages. Rock tombs abound. But neon lights now wink at the traveler by night

where once there were only the stars and moon.

As Jerusalem drops from sight Bethlehem appears, an enthralling image. The knowing pilgrim, even though he will shortly recoil at the unashamed commercial exploitation of the biblical story—the sight of "Jesus Christ tearooms"—now must stop for a moment.

The eye is caught and held by the beauty of the hilly country to the right and the left. Olive trees shine silver in the crisp winter air. Away to the east, the land drops to the Dead Sea and to the mountains of Moab beyond.

### FINALLY LOCATED

NOBLESVILLE UPI — A candy vending machine serviceman missing since Dec. 5 has been found safe in California, ap-

parently the victim of amnesia, it was learned today.

Paul R. Daywalt, who disappeared with his Volkswagen loaded with candy and cigarettes, was found wandering the streets of Fresno. His identity was established through fingerprints and members of his family left for California.

Daywalt's daughter, Sandra, 18, said her mother telephoned

Thursday night and said he was placed in a hospital. She said her father does not know who he is.

"He recognized mother but not as his wife," Miss Daywalt said. "He didn't recognize any of my three brothers who went out there with mother."

Eight elk were recently released on the Brown County State Park in an effort to reestablish this forest-game species that once roamed the grassy plains and woodland areas of Indiana. These animals were brought together from several of the state park wildlife exhibits where they were considered surplus and placed in a large pen deep within the Brown County State Park. This step was taken to gradually change their diet from hay and corn and condition them to forest browse.

The elk, *Cervus Canadensis*, sometimes called Wapiti belongs to the deer family, but is much larger than the white-tailed deer that is found throughout the state. Their average weight is in the area of five to six hundred pounds, and they feed on grasses, twigs, leaves, green plants, etc.

What are the chances for the released elk to survive and become established in Indiana? There is certainly a possibility, but a great deal depends upon the animal itself to revert from the domestic state to the wild.

Another chief factor will definitely depend on the people of Indiana. In several sections of Indiana, the poacher has greatly reduced the size of the white-tailed deer herd and these poachers could well be the determining factor as to the success or failure of the elk project. People seldom dare to disregard strong public opinion, and a general public approval of the elk release would help a great deal. Public opinion is the force behind all law enforcement and is stronger than any law.

CHICAGO BREATHING EASILY ONCE AGAIN—An American Oil Company barge and its three tanks are half submerged after the craft sank in Indiana Harbor in East Chicago, Ind., dumping 6,000 barrels of a highly flammable TNT component into the water. The city literally held its breath for several hours.

LAST QUINTUPLETS HOME—Mary Ann (left) and Mary Catherine Fischer are all agog as they are dressed in St. Luke's Hospital, Aberdeen, S. D., to go home. They are the last of the Fischer quintuplets to leave the hospital.
